Nature and Extent of involvement of Faculty and students in academic affairs / improvements

- Before the commencement of each semester, an academic calendar is prepared by institute followed by department and circulated to students and faculties for planning of semester.
- Faculties prepare a lesson plan for every course, which includes planning of contents to teach, delivery methods for particular course and time management. In order to standardize the process of curriculum implementation and assessment, MSBTE has evolved with CIAAN (Curriculum Implementation and Assessment Norms). All the faculty members to facilitate the proper implementation of teaching learning process follow these norms. Before the start of semester, the faculties are allotted with subjects to be taught for upcoming semester.

- Innovative teaching learning process is implemented by the guidelines and format of the college while preparing lecture notes, lesson plan and course plan. Depending on the requirement of the subjects' video lecturing, power point presentations and invited talks are arranged.
- Teaching and Practical plan are prepared as per the academic calendar. Teaching and practical compliances is monitored periodically by HoD and Academic dean.
- All theory and practicals are well planned before start of semester according to academic calendar and verified by HoD and academic dean. For conducting lectures and practicals different teaching aids are used as chalkboard, ICT tools, e-learning materials etc.
- For enhancement of teaching learning process along with traditional chalkboard, method different ICT tools are used such as MOODLE, NPTEL video lectures.
- Every course coordinator prepares question bank according to defined COs for each module. Prepared question paper is guided by departmental examination coordinator and gives suggestion accordingly. Course coordinator prepares a model answer paper and assesses student answer sheets accordingly. Each question paper consists of different question types such as descriptive, MCQs, design/derivative, drawing, programs and numerical, based on which question paper audit is done. Schedule of internal test is planned in academic calendar before the commencement of semester and executed properly.
- Teaching faculty is promoted, encouraged and sponsored to attend Seminars, workshops related to their fields conducted by organizations for enhancing and updating their skills and knowledge of the subjects.

- Departments have their own associations under which various lectures, seminars, workshops by experts and resource persons are conducted to present the new trends in the branches to the student community regularly.
- In each semester, industrial visits are arranged from curriculum and beyond curriculum. During this, they observe different problems in industry; many of students take project related to these problems and solve it in their project work.
- For developing specialized skill development including communication, professional and core employability skills, classes on Professional Practices, Development of Life Skills & Entrepreneurship Development is conducted.
- An effective Student mentoring system has already been implemented in the institute. Mentors conduct periodical meetings with the mentees to know the problems or issues concerned with academics of mentees. Students are encouraged / counseled for overall personality development and for improvement of overall performance.

Mechanism/ Norms and Procedure for democratic/ good Governance

- Good governance of the technical institution plays an important role in the growth and development of the Institution. Governing body acts professionally and approves the ultimate goal of the Institution.
- The governing body is unambiguously and collectively responsible for overseeing the institution's activities, determining its future direction and fostering an environment in which the institutional mission is achieved. The body meets twice a year and proceedings of the meetings are maintained properly.
- The Principal conducts the regular meeting with Heads of the Departments every week and decisions, implementation any procedures and policies will be made or evolved through consensus after discussions.

- The HOD's conduct the departmental meetings regularly with the staff for the effective implementation of procedures, policies, etc.
- An Executive director conducts the meetings with the staff once in a month to address the issues regarding academics & faculty members. The Governing Council members address the staff every time they meet in the institution. The Management / Principal are always accessible to staff with an open mind to discuss any matter related to the institution well being.
- AICTE pay scales are implemented for all staff members. In addition, Government Norms of AICTE, DTE and MSBTE are followed under the guidance of governing body and advisory committee.

Student Feedback on Institutional Governance/ Faculty performance –

- An effective Student mentoring system has already been implemented in the institute. Mentors conduct periodical meetings with the mentees to know the problems or issues concerned with academics of mentees. Students are encouraged / counseled for overall personality development and for improvement of overall performance.
- Feedback is collected once in a semester for all courses. Feedback is taken generally after Unit Test I. The feedback questionnaire is given to the students and explained by teacher. The analysis of parameters mentioned in the feedback is done. The feedback is conveyed to respective faculties. If improvement is needed in area, it is conveyed to the concerned faculty by HOD.
- Analysis of the student feedback is carried and it is critically reviewed. Based on the feedback received the Appreciation Letters are issued to the faculty members who have scored more than 80%.
- The effectiveness of the student feedback on the faculty has motivated faculty members who have received appreciation and has boosted their confidence. For the faculty members who have received lesser percentage of feedback has been counseled by higher authority. This has resulted in overall improvement of the teaching learning process.

- In order to analyze its effectiveness and for constant improvement of the above, the necessary feedback are taken from the students. The feedback received from the students about the facilities is critically reviewed and corrective measures are implemented.

Grievance Redressal mechanism for Faculty, staff and students

Institute has grievance redressal mechanism. For this we have separate cells as Grievances Redressal Committee. The Grievance Redressal Cell attempts to address genuine problems and complaints of students and staff whatever be the nature of the problem. The cell is indented to find solutions for problems like Complaints regarding class room teaching – Class room management, completion of syllabus, teaching methods etc, if and when they arise. The Grievance Redressal Cell conduct meetings monthly and takes steps to redress the grievance. The staffs are free to express any of their problems / grievances relating to academics / co curricular activities with the Heads of the Departments, Principal in the regular meetings and suitable redressal of the grievances will be immediately made by providing the required facilities. Students have free and democratic access to all the Teachers, Counselors, Heads and Principal so that nothing is hindrance in student – teacher interaction. Any grievance of a student in academic, personal problems etc. would be attended immediately by the teachers / Tutors in consultation with Heads, Warden / Chief Rector etc. so that they are provided with homely atmosphere. A free, fair and democratic ambience is provided in the institution to the students, staff and faculty members.
